Geoderma 93 (1999) 351–352

GEODERMA

Contents Volume 93, 1999

Research Papers

Structure and hydrology of mounds of the imported fire ants in the southeastern United States
W.P. Green, D.E. Pettry and R.E. Switzer 1

Adsorption–desorption reactions of selenium in some soils of India
K.S. Dhillon and S.K. Dhillon 19

Processes of colloid mobilization and transport in macroporous soil monoliths
M. Lægdsmand, K.G. Villholth, M. Ullum and K.H. Jensen 33

Identification of throughflow using the distribution of secondary iron oxides in soils
S.J. Park and T.P. Burt 61

Distribution of water-stable aggregates and aggregating agents in Cerrado Oxisols
H. Neufeldt, M.A. Ayarza, D.V.S. Resck and W. Zech 85

Structure of surface cracks in soil and muds
B. Velde 101

pH-Dependent kinetics of tuff dissolution
A. Silber, B. Bar-Yosef and Y. Chen 125

Rate processes of calcium, magnesium and potassium desorption from variable-charge soils by mixed ion-exchange resins
J.O. Agbenin and B. van Raij 141

Book Review

Humic Substances in Soils, Peats and Waters: Health and Environmental Aspects, Edited by M.H.B. Hayes and W.S. Wilson. Royal Society of Chemistry, Cambridge, 1997. Hardcover, X + 496 pp. Price £59.50, ISBN 0-85404-699-2. 159

Research Papers

Organic matter, nutrient contents and cation exchange capacity in fine fractions from semiarid calcareous soils
F. Caravaca, A. Lax and J. Albaladejo 161

Quantification and simulation of errors in categorical data for uncertainty analysis of soil acidification modelling
P.A. Finke, D. Wladis, J. Kros, E.J. Pebesma and G.J. Reinds 177

Some improvements of the fractionation method of organic phosphorus in calcareous soils
Y. Fan, H. Xiong and S. Li 195

Plot-scale spatial patterns of soil water content, pH, substrate-induced respiration and N mineralization in a temperate coniferous forest
A. Bruckner, E. Kandeler and C. Kampichler 207

Comparison of different approaches to the development of pedotransfer functions for water-retention curves
B. Minasny, A.B. McBratney and K.L. Bristow 225

Sediment enrichment ratios after mechanical site preparation for *Pinus radiata* plantation in the Basque Country
J.R. Olarieta, G. Besga, R. Rodríguez, A. Usón, M. Pinto and S. Virgel 255
Future rainfall erosivity derived from large-scale climate models — methods and scenarios for a humid region
P. Sauerborn, A. Klein, J. Botschek and A. Skowronek 269
Weight and optical differences between soil humic acids fractions obtained by coupling SEC-PAGE
O. Trubetskoj, O. Trubetskaya, O. Reznikova and G. Afanas'eva 277
Applicability of solid-state ^{13}C CP/MAS NMR analysis in Spodosols: chemical removal of magnetic materials
K.H. Dai and C.E. Johnson 289
Effect of organic matter removal by low-temperature ashing on dispersion of undisturbed aggregates from a tropical crusting soil
L.P. D'Acqui, G.J. Churchman, L.J. Janik, G.G. Ristori and D.A. Weissmann 311
Electrophoretic mobility of some tropical soil clays: effect of iron oxides and organic matter
B.A. Osei and B. Singh 325

Discussion Papers
On the concept of pedodiversity and its measurement
J.A. Camargo 335
On the concept of pedodiversity and its measurement. A reply
J.J. Ibáñez and S. de Alba 339
